

# SafeRUS

## NetSurveillance DVR

### OVERVIEW

The **NetSurveillance** Digital Video Recorder (**NSDVR**) is designed especially for security and surveillance field which is an outstanding digital surveillance product. It introduces embedded LINUX operating system which is more stable. It introduces standard H.264mp video compressed format and G.711A audio compressed format which insures the high quality image and low error coding ratio. Strong network services greatly enhance the network data transmission capacity and remote control capabilities.

# NSDVR Specifications

## FEATURES Specifications

Recording Channels (video)	4 (up to 8)
Recording Channels (audio)	4 (up to 8)
Maximum Display/ Recording Frame Rate on each channel	Up to 30 fps
Maximum Recording Video resolution	704X480
Video Input	4 CH (up to 8)
Video Output	1 CH
Audio Input	1 CH (up to 8)
Audio Output	1 CH
Recovery power after power reconnected	Yes
User Interface	Web – Client Software – Smartphone
Remote to view by smartphone	Yes (Blackberry, iPhone, Android, Nokia S60 and later)
Multiple channel playback simultaneously	Yes
Live View/Playback/Record and backup simultaneously independently with each other	Yes (Local and Over Network)
Multiple backup mode	USB flash disk, USB hard drive, network backup
Full control through USB Mouse	Yes
VGA Output	Yes
PTZ control via built-in RS-485 port	Yes
SATA HDD unlimited for the capacity	Yes
Full Control with IE browser and CMS (Center Manager System) Software	Yes
Send Alarm Email and Upload Snapshot to FTP	Yes
Detect Motion	Yes
Detect Video Blind	Yes
Detect Video Loss	Yes
